EDUCATION

G. Narayanamma Institute of Technology and Science Hyderabad, Telangana
B.Tech in Electronics and Telecommunication Engineering 2023 – Present
CGPA: 9.57

Alphores Junior College Karimnagar, Telangana
Board of Intermediate Education (MPC) 2021 – 2023
Percentage: 98.9%

SKILLS

Programming Languages: Java, Python, C

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL, MongoDB

Tools/IDEs: GitHub, VS Code, Arduino IDE

CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

PROJECTS

Smart Surveillance System

Tech Stack: ESP32, Arduino IDE, Embedded C, PIR Sensor, Ultrasonic Sensor, LDR Sensor

- Developed an ESP32-based smart surveillance system for nighttime intrusion detection.
- Integrated PIR, Ultrasonic, and LDR sensors for motion-triggered lights and alarms.
- Designed an energy-efficient, low-cost security solution for homes and restricted areas.

ML-Based Pothole Detection & Vehicle Speed Control System

Tech Stack: Python, YOLO, OpenCV, Arduino, Serial Communication, PWM

- Developed a real-time pothole detection system using YOLO and OpenCV.
- Implemented Arduino-based vehicle speed control using PWM and serial communication.
- Combined computer vision and embedded systems to build an AI-driven road safety prototype.

ACHIEVEMENTS

- **Winner – Ideathon conducted by Wells Fargo.**
- **3rd Prize – Project Expo** for *ML-Based Pothole Detection and Vehicle Speed Control System*
- **Selected for the PwC LaunchPad Trainee Program** – PwC (Ongoing).
- **Top 5 Finalist – eMudhra Hackathon** for *ScholarPath*, an AI-powered scholarship discovery platform.
- Solved **600+ coding problems** across platforms including [HackerRank](#), [CodeChef](#), and [LeetCode](#).

CERTIFICATIONS

The Joy of Computing using Python (NPTEL) | Smart Coder (Smart Interviews) | Google AI Essentials (Coursera) | CCNA: Introduction to Networks (Cisco)
